PROFILE

As an Information Technology student in my 7th semester at DAV Institute of Engineering & Technology, I am committed to leveraging my strong problem – solving skills and profound interest in Software development, particularly in JAVA and JavaScript, in a dynamic team environment.

EXPERIENCE

Summer Web Development Intern

Prodigy Infotech | June 2024 – July 2024

- Developed a **Responsive Landing Page** with interactive navigation menu.
- Created a **Stopwatch Web Application** for time tracking.
- Implemented a **Tic-Tac-Toe Web Application** with user-friendly interface.
- Designed a **Personal Portfolio Web Application** showcasing projects and skills.
- Built a **Weather App** that retrieves real-time weather data from a weather API based on user location.

PROJECTS

NuggetWhispers [Currently Developing – Group Project]

Actively participating in the development of NuggetWhispers, an innovative website offering a text summarizer, and a curated selection of e-books, audiobooks, and magazines, aimed at improving user experience and content delivery.

Leena's Portfolio

This personal portfolio is meticulously crafted using HTML, CSS and JavaScript. It features a showcase of my projects, demonstrating my proficiency in Web Development and Design.

Brick-Breaker-Game

Developed an interactive Brick Breaker game utilizing HTML, CSS, and JavaScript, showcasing proficiency in front-end development and game design. Implemented dynamic graphics and responsive controls, resulting in an engaging user experience.

Hotel Management System

Designed and implemented a robust Hotel Management System in Java with MySQL integration, facilitating seamless check-in, check-out, billing, and room management processes. The system optimizes hotel operations and delivers an enhanced guest service experience.
